

Metro Boiler Tube Co., Inc. is strategically located in the southeastern United States with facilities in Ringgold, Georgia and Gonzales, Louisiana ready to meet your needs.

We are recognized in the industry as a dependable, high quality, cost effective source for fabricated and straight boiler tube products.

We continue to offer the full spectrum in boiler tube fabrication at our combined 138,000 square feet facilities. This includes Cold Bending, Panel Bending, Press Bending, Swaged Tubes, Generating Tubes, Superheaters, Economizers, Finned Tubes, Membrane Panels, Tube Shields, Studding, Tube Plugs, Header Fabrication, Roto Blasting, Tube End Polishing, ABS Certification, Non-Destructive Testing (NDT), Hydrotesting, Stress Relieving, Solution Annealing, & Painting / Preservation.

We also keep over 650,000 feet of the most popular sizes and specifications of tubing in stock at our two facilities in Ringgold, GA and Gonzales, LA.

Check our current inventory. It is available on our website and is updated weekly.

We invite you to visit our facilities and see firsthand the true dedication, commitment, and professionalism that exists throughout our entire organization.

We look forward to providing your mechanical fabrication and pledge to **be there when you need us.**

New Mechanical Division
METRO
BOILER TUBE CO., INC.

Dependable. High Quality. Cost Effective.

Mechanical Division

We are expanding our existing customer base and entering new markets to diversify the company. Metro Boiler Tube has purchased all brand-new top of line equipment starting with a 10,000-watt Trumpf Fiber Laser, Baykal CNC Press Brakes, CNC Plate Rolls, and Automated Saws. We are expanding our business in the power industry as well as the following new industries: automotive, medical, food, chemical, service, and others. We can now cover all your sheet metal, plate fabrication, and structural steel needs.

Our Capabilities

- Fiber Optic Laser Cutting
- Press Brakes
- Sheet/Plate Rolls
- Automatic Saws
- Machine Shop
- Laser Cut Membrane Bar +/- .005
- Seal Boxes
- Handcuffs
- Tube Shields
- Tube Plugs
- Welding: Mig, Tig and Stick
- Structural Fabrication
- Sheet Metal/Plate Fabrication
- Painting
- ASME Certified
- U, R and S Stamps

Online inventory updated weekly
